

Six Sigma Yellow Belt

2-day Training Course

What is it?

Yellow Belts may be operational teams or intact work groups who will be using the DMAICT methodology to improve processes. Training will be on the basis of our 2 day programme and is highly interactive. This course includes many exercises and a simulation that demonstrates how waste and variation occurs in a process and, more importantly, how to use Lean and Six Sigma tools to eliminate it.

Who should attend?

Yellow Belt training should be given to those people identified as having an involvement in any Six Sigma project., and who:

- Work in processes that need improving using the DMAICT methodology
- Are suppliers of inputs to processes that are undergoing a Six Sigma improvement project

Course Objectives

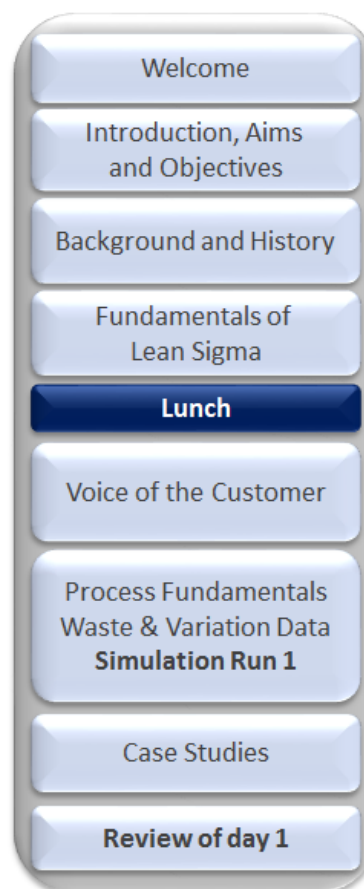

- Understand Six Sigma in the context of the business
- Provide an overview of the Six Sigma (DMAICT) improvement process
- Introduce and develop competence in the language of Six Sigma
- Provide an overview of the tools and techniques that are applied within DMAICT
- Understand the roles and responsibilities of Champions and Belts

How will they benefit?

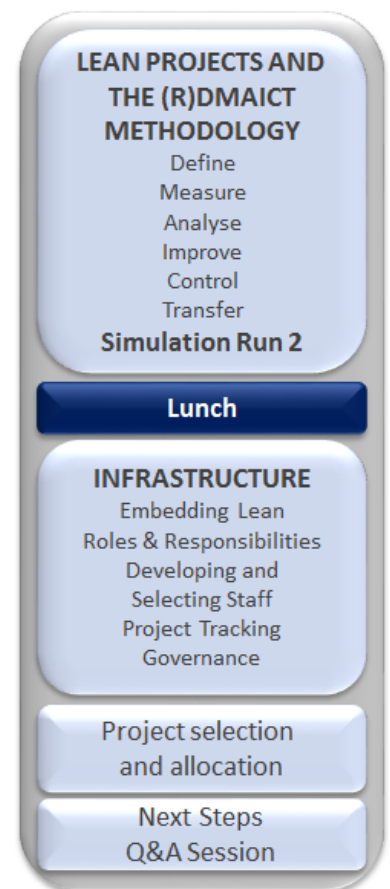

At the end of this two day course delegates will be able to recognise the phases and steps in a Six Sigma project, know when and how to use certain tools in the Six Sigma tool-set and contribute skills and knowledge to ensure success in a Six Sigma project.

Agenda content is subject to change.
